

## The Ocean Needs YOU! Ocean Clean Up:

Plastic pollution is one of the most important issues that faces the world, the issue grows even bigger everyday. This is why I have chosen to bring it to your attention.

You may be thinking that the issue is out of your control, but the truth is making a change that may seem small and unimportant will make a difference.

There are so many ways that you can get involved, whether it is in a big or a small way. It is as easy as;

Recycling paper/ plastic bottles,

Using less single use plastic,

Litter picking,

Taking part in a local clean up, and so on.

There are organisations that work every second to clean the ocean and preserve it for generations to come. Organisations such as 4Ocean ([www.4ocean.com](http://www.4ocean.com)), The Ocean Clean Up ([theoceancleanup.com](http://theoceancleanup.com)) and Ocean Conservancy ([oceanconservancy.org](http://oceanconservancy.org)).

But they cannot do it alone.

The ocean needs your help, before it is too late to go back.

Will you be the one to take the first step?

Will you encourage others to do the same?

Say NO to single-use plastic!
